

App Store Review Tracker

A Hackathon project presented by Tapish Rawat

Background

Overview of the project

The App Store ReviewTracker Automation script makes it easy for any user to monitor, respond, and share reviews for every location of your business and app over a mail.

Simply download the script from the Github, and gain insights into the customer experience within minutes.

- Never miss out on a new review or report, even away from your desk.
- Spend more time optimizing the customer experience to generate loyalty and consistent revenue.

Download the App Store ReviewTracker Automation script today to view each and every new reviews through mail.

Significance of the Project

In terms of scope

App Store ReviewTracker
Automation script allow user to
track the reviews of apps over a
mail!

In terms of time

This script will save our time!
It will provide all the new reviews
time to time over a mail!

I want

I want IGTV section back i hate reels everywhere there is reels..... want IGTV section back

Story uploaded problems

Story uploaded problems

Not Ipad compatible

Scale to screen size of iPad!!!

Not able to shoot 60sec reel though my app is updated

There's no option visible to create 60 sec reel ! This problem is only detected in my account please solve this out

Messages section is not opening

My instagram app had a bug i think because messege section is not showing messages please fix it im using iPhone 5s

Not get reshare option

Not getting reshare option in stories for reels

Not Optimised For iPad (10.2 inch)

This App Doesn't fit in iPad Screen and also doesn't have split screen feature. Please upgrade the app as Facebook which works as charm in iPad

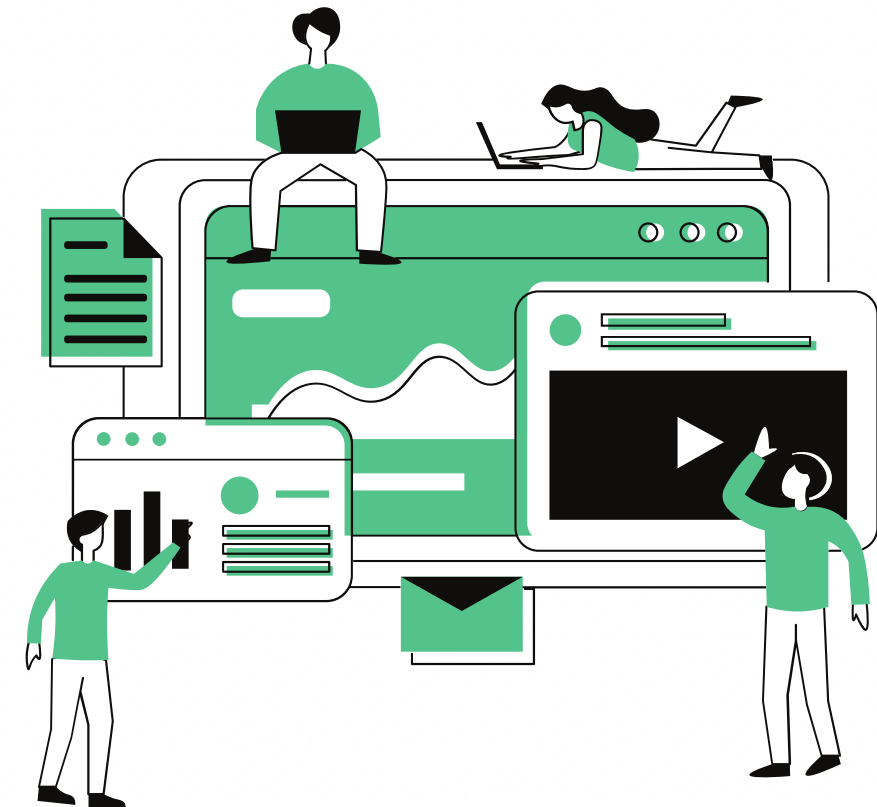

Not working!

It is not working I can't have Instagram music either i can't upload a story with music, I don't have the music option in my story list, i also can't upload a photograph with hashtags and tags . Please do something instagram

Chat box not working

After highlighting the issue many times no resolution have been provided by the Instagram

Enjoy
